Caring for Bexhill's past,
present and future.

1 February 2017

Dear Mr Corke,

Bexhill Heritage would like to congratulate the applicant for this latest planning application which re-establishes a redundant heritage asset back into good use providing housing yet maintaining the integrity of the building and street scene. This is an excellent example of good custodianship and architectural ingenuity and we are delighted that this enlightened stance has been taken.

The only concern that Bexhill Heritage has, and which we expect the Planning Authority to ensure, is that any modifications to the existing stained glass windows would be sympathetic to the building in terms of design and materials.

As a heritage organisation we have no further comments however we will be maintaining a watchful eye on the progress of this application.

Yours sincerely,

Raymond Konyn

Bexhill Heritage (Founder, Trustee & Chairman)
