Caring for Bexhill's past,
present and future.

September 13th

Dear Mrs Taylor

Replacement UPVC Windows- Flat 4, Egerton Court, 29 Park Road, Bexhill 2020/1242

I am sorry to write, on behalf of Bexhill Heritage, to oppose this proposal. We have no objection in principle to the replacement of wooden windows by high quality Upvc windows (though preferring repair where practicable) but in this case the proposed windows on the front elevation in particular are not of sufficient quality for this prominent location in the Conservation Area.

In particular the design, incorporating top hung sashes, instead of sliding sashes with traditional narrow sections including the closing elements, such as can now be found in the Roseview Ultimate Rose and the Rehau Heritage type, is not good enough.

We appreciate that the design currently proposed is the same as already installed at many addresses in Park Road but that only emphasises how inappropriate they are.

We hope you can persuade the applicant to upgrade the design of the windows accordingly.

Yours sincerely

A handwritten signature in cursive script that reads 'David Beales'.
