Caring for Bexhill's past,
present and future.

17th June 2020

Re: 26 Collington Avenue, Bexhill, Proposed Flats

Application number RR/2020/ 468

Dear Ms. Gough,

Further to our letter of 17th May we see the Highway Authority is seeking modifications to the parking arrangements. If these result in any diminution of the landscaping, already minimal, we object as the loss of vegetation in the street scene is contrary to its character and in conflict with the Councils intentions.

Yours sincerely

Planning Consultant to Bexhill Heritage

PS Although we have noticed minimal changes to the planning applications web site, none of these have improved transparency. The public at large is no better informed as to what is taking place particularly between agent/applicant and the Council as the application is in course of determination. Would you please bring this to the attention of your team leader.
